

W_Internship

SMBW

On-site · Richmond, VA

About the role

Application deadline	Posted date	Seasonal role
December 16, 2022 12:00 AM	November 8, 2022	(1/2/23 - 1/13/23)

Location type	US work authorization
On-site	Accepts OPT/CPT

Role Description

This opening is for Virginia Tech's 2023 pilot W_Internship program, and is open to all applicable 3rd-year architecture students. Much like a summer internship at our office, this position would entail the opportunity to engage with our cross-disciplinary studio on a variety of project types and scales. Daily tasks would range across a variety of undertakings, including but not limited to participating in design-team meetings/charrettes, presentation graphics preparation, client presentations, job-site visits, project modeling and documentation, and research as part of our firm's recently founded sustainability and community initiatives.

You match all of SMBW's candidate preferences

Employers are more likely to interview you if you match these preferences:

- ✓ GPA
- ✓ School Year
- ✓ Majors
- ✓ U.S. Work authorization

Employer accepts OPT/CPT.

SMBW is a leading interdisciplinary design studio for thoughtful, forward-looking contemporary architecture, landscape architecture, interior design and urban planning in the Mid Atlantic Region. We partner with our clients to produce timeless, identity-rich and mission-driven environments by integrating rigorous technical expertise with stewardship of the urban and natural landscape. We are architects, interior designers and planners; photographers, painters, furniture makers, and musicians; historians and collectors; volunteers, advisors, community leaders, and, above all, designers. Does this resonate with you? Let's talk!
